

## Groups

# Hackathon 1: Portfolio Building

### Heads up!

One assignment submission is allowed per group.

## ◆ Peer Group Collaboration

Build your own portfolio project and seek guidance and counsel from your peer group as you build.

### Peer Group Structure:

**Support:** Work together, share ideas, and troubleshoot issues collaboratively.

**Leadership:** Each group will have a peer leader responsible for guiding members and ensuring timely submissions.

**Recognition:** Peer groups where **all** members successfully submit their portfolios by the deadline will receive special recognition during the Award Ceremony.

### Benefits of Peer Groups:

Get valuable feedback on your portfolio before submission.

Learn from your peers' experiences.

Celebrate success together as a team!

## Assignment Requirements

**All learners are required to submit a hackathon project.**

The project must be built strictly using **HTML, CSS, javascript and Databases**.

Submission must be done via this link: [Submit Here](#).

Participants should nominate the most outstanding portfolio project and paste the deployed link in the submissions section under their group.

Individuals must **star rate each other's solutions** and provide constructive comments based on the evaluation criteria below

## Evaluation Criteria

Submissions will be evaluated based on the following:

**Creativity and Ingenuity** – Original ideas and standout features.

**Code Quality** – Clean, readable, and efficient code.

**Documentation** – Informative README file and clear code comments.

**Deployment** – Successfully hosted on a platform like GitHub Pages or Netlify.

**Development Process** – Effective collaboration and project management.

**Technology Stack** – Usage of responsive, visually appealing design elements.
